Internal construction schematic only

SPECIFICATIONS AND IDENTIFICATION

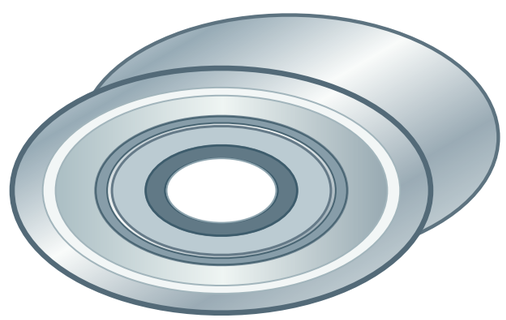

CONSTRUCTION / NOMINAL SIZE

Bore diameter (d)	**7 mm**
Outside diameter (D)	**19 mm**
Bearing width (B)	**6 mm**
Closure configuration	**Metal shields, ZZ**
Rings and balls	**SAE52100 chrome steel**
Cage	**Pressed steel**

OPERATING DATA / SOURCE

Static load rating	**87 kgf**
Dynamic load rating	**228 kgf**
Speed limit*	**36,000 rpm**
Standard lubrication**	**Multemp SRL grease**
Lubricant supplier	**Kyodo Yushi**
Compliance stated	**EU RoHS / REACH**

ILLUSTRATIVE APPEARANCE

Diagrammatic vector illustration · not a photograph

DRAWING NUMBER	DESCRIPTION	SOURCE	SCALE	SHEET / STATUS
607ZZ-REF-01	**Miniature shielded radial ball bearing**	**SMB Bearings 607ZZ datasheet**	**Views nominally proportional**	**01 / 02 · REFERENCE**

All dimensions in mm unless specified. * With adequate lubrication. ** Lubrication may vary. Views include illustrative unspecified geometry.

607ZZ | RADIAL BALL BEARING

DOUBLE METAL SHIELD / MINIATURE RADIAL BALL BEARING

PART 607ZZ
NOMINAL Ø7 × Ø19 × 6 mm
SHEET 02 / 02 · TOLERANCE & FIT DATA

RADIAL INTERNAL CLEARANCE

Class-dependent radial play values reproduced from the supplier datasheet.

RADIAL PLAY	MC1	MC2	MC3	MC4	MC5	MC6
micrometres (µm)	0 - 5	3 - 8	5 - 10	8 - 13	13 - 20	20 - 28

DIMENSIONAL TOLERANCES

The P0, P6 and P5 classes shown below are supplier-listed options; a supplied bearing's class must be confirmed.

CHARACTERISTIC	P0	P6	P5
Bore deviation (mm)	+0 / −0.008	+0 / −0.007	+0 / −0.005
Outside diameter deviation (mm)	+0 / −0.009	+0 / −0.008	+0 / −0.006
Width deviation (mm)	+0 / −0.120	+0 / −0.120	+0 / −0.040
Single bore variation	8	7	4
Single outside diameter variation	9	8	5
Inner width variation	15	15	5
Outer width variation	15	15	5
Inner radial runout	10	6	4
Outer radial runout	15	9	6

SOURCE NOTES

Variation and runout units are not explicitly identified in the original table; numbers are transcribed without unit assignment.

DRAWING NUMBER	DESCRIPTION	SOURCE	SCALE	SHEET / STATUS
607ZZ-REF-01	Miniature shielded radial ball bearing	SMB Bearings 607ZZ datasheet	Views nominally proportional	02 / 02 · REFERENCE

Based solely on SMB Bearings 607ZZ datasheet. Supplier notes specifications may change and recommends testing before suitability is determined.
